

F-18 RADIOTRACER FOR ALPHA-SYNUCLEIN

[Tu, Zhude "Will"](#)

[Gill, John](#)

T-018513

These materials are an alpha-synuclein binding compound (standard), and the precursor for PET radiolabeling the compound. Precursor's code name: TZ61-23; chemical name: 2-((6-methoxypyridin-3-yl)amino)quinolin-6-ol. Standard's code name: TZ61-44; chemical name: 6-(2-fluoroethoxy)-N-(6-methoxypyridin-3-yl)quinolin-2-amine.
