

IPSC REPORTER BJFF6 CELL LINES

[Jain, Sanjay](#)

[Gill, John](#)

T-018986

These induced pluripotent stem cell reporter cell lines were generated by introducing the following fluorescent reporters at the indicated loci:

- E2Crimson at hCA2
- mTdTomato at HCN3
- mCerulean3 at UPK3A
- mEGFP at AQP2

BJFF6 cells were modified with CRISPR/Cas9 to generate these cell lines.
