

MURINE HYBRIDOMA PRODUCING IGG2B MONOCLONAL ANTIBODY TO HUMAN CD85H (ILT1)

<u>Colonna, Marco</u>

Poranki, Deepika

T-005807

Wistar rats were immunized with ILT1/FLAG-transfected RBL cells. ILT1 mAb was selected by flow cytometry for staining ILT1/FLAG-transfected RBL cells. This antibody can be used to study myeloid cell activation.
