

MURINE HYBRIDOMA PRODUCING MONOCLONAL ANTIBODIES AGAINST HUMAN NKP44

[Colonna, Marco](#)

[Poranki, Deepika](#)

T-004356

Inventors generated NKp44 monoclonal antibodies by immunizing mice with a NKp44-human crystallizable fragment (Fc) fusion protein. The antibodies have been used to study innate and adaptive immune responses.

Publication: [Paradoxical inhibition of human natural interferon-producing cells by the activating receptor NKp44](#)
