

PAH198 -- PLASMID CONTAINING COLE1

[Hoynes-O'Connor, Allison, Moon, Tae Seok](#)

[Hanford, Charles](#)

T-019379

A plasmid containing the E. coli ColE1 origin of replication, a chloramphenicol (antibiotic) resistance cassette, and a tetracycline-inducible antisense RNA gene regulator containing a target binding region (TBR) and the synthetic MicF M7.4 Hfq binding site for additional stability in the RNA molecule
